

## Case Study

### Unit 306, Cambridge Science Park

Hilton Cannon Electrical was contracted to complete all electrical services installations within an existing 2-storey office building on Cambridge Science Park.

The building underwent a complete refurbishment to include:

- Ground & First Floor Office Space to Cat A
- Newly Designed Main Entrance Extension
- Plant Room and Riser Cupboards
- Associated Car and Cycle Parking Facilities

In addition, perimeter and amenity LED lighting were included within the scheme.

Project Duration: 42 Weeks  
Project Value: £320'000.00
